

Guidelines for Final Presentations

Prof. Tzu-Ting Yang

Institute of Economics, Academia Sinica

May 14, 2026

Final Presentation: 6/4

- ▶ The final presentation will be hold on 6/4
- ▶ **Please upload your slides before 3:00pm 6/4 using the following link**
 - ▶ <https://www.dropbox.com/request/C3Xtp5C1l79MpoPPjDDY>
 - ▶ Format of file name: present_order+studentID+name
 - ▶ Example: 1_109323010_TzuTingYang

Content

- ▶ 5-10 minutes presentation
 - ▶ My suggestion: around 5-7 slides
- ▶ To control time, audiences can only ask questions after presentation (2-minutes Q&A).

Content

Page 1

- ▶ Introduce your research topic
 - ▶ What is the causal relationship you want to estimate
 - ▶ Briefly discuss why it is interesting

- ▶ Discuss your data and sample
 - ▶ Introduce the datasets you use
 - ▶ Discuss how your sample selection criteria
 - ▶ Sample period
 - ▶ Impose any restrictions on the estimation sample

- ▶ Discuss your empirical method
 - ▶ Write down your estimated equations
 - ▶ Define the variable and notations used in your estimation equation
 - ▶ The outcome variable
 - ▶ The treatment variable
 - ▶ Important covariates or fixed effects

Content

Page 4 - 5

- ▶ Show and discuss summary statistics of your sample
- ▶ Present the preliminary results
 - ▶ If possible, present the preliminary results
 - ▶ Use tables or figures
 - ▶ Interpret your estimates
- ▶ Finally, you can discuss what will you do before you submitting your term paper (future work)
